His first love was sculpture and he is passionate about his favourite medium – sand.</p> <p data-bbox="521 483 1637 582">Tim will work with you to develop a design that meets your time and budget requirements. His whimsical sense of humour and carving skills mean his pieces attract a great deal of attention, both during their creation and afterwards.</p> <p data-bbox="521 593 1682 692">You can join in! Learning how to first pound up a bucket of sand, then using special carving tools, people can observe what Tim is doing and have a go themselves – creating a piece that reflects the theme of the larger piece.</p> <p data-bbox="521 703 566 732">We</p>	<p data-bbox="1709 236 2119 264">http://www.sandsculpturewa.com</p>

The two men set a wager for £25 to see who could fell a tree the fastest. Boy are we glad they had that bet! Because who doesn't love a good log chop!?! This year we are excited to add a good old-fashioned log chop to the mix. With axemen from all over the state going head to head in a nail-biting wood chopping spectacular. Watch as they cut through the timber with their razor-sharp axes. It's a true art and it's definitely not something you want to miss!</p>	<p data-bbox="1709 770 2119 836">http://www.australianaxemen.org.au/western-australia</p> <p data-bbox="1709 877 2119 943">https://www.facebook.com/WAAxemensLeague</p>

<p>Russell Johnsen</p> 	<p>Food Court 1 Friday 9am to 11am Food Court 2 Friday 11am to 1pm Food Court 1 Friday 2pm to 4pm</p> <p>Eclectic may best describe the music of Russell Johnsen. His first instrument was violin, but not satisfied with just playing, he undertook training in violin and bow making as well. He later acquired a vielle a`roué or "hurdy gurdy", an unusual member of the bowed stringed instrument family. Early pictorial evidence of this instrument dates to the eleventh or twelfth centuries and it has survived in French and Hungarian musical cultures in particular. He also makes and plays the rebec, one of the ancient precursors of the violin, which itself evolved from the Moroccan "rabab". In addition, he plays the oud, a fretless Arabic lute. His repertoire has evolved around these instruments and covers mediaeval, renaissance and traditional music derived from European cultures with some inspiration from music of the Middle East. Early influences included Irish and French, but horizons encompass village and café music spanning most of Europe.</p>	<p>0407997306 or r.johnsen@westnet.com.au</p>
